EXIT

🖐 🌡 Manual mode

**This mode is used to choose a set-point temperature that remains constant.
Turn the selector dial to 🖐.**

To cancel the current manual mode, turn the selector dial.

Confirm

🖐 ☀/🌙 Override

In automatic mode, manual override can be used to switch from Comfort to Economy (or vice versa) until the next change of programme

E.g.: it is 15:30 and you would like to switch to Comfort mode before the set time (17:00).

Press the button   Override currently active

If you wish to cancel the override that is currently active, press the button again.
At 5pm, the programme will return to the normal schedule.

Turn the selector dial to PROG.
1. Create your 24-hour programme

0h 6h 8h 17h 23h 24h

Press the buttons ☀ or ☾ to create your different Economy or Comfort periods.

The programme may be weekly (PROGx7) or daily (PROGx1). This choice is made using the switch on the back of the device.
This programming can also be done in one-hour, half-hour, or quarter-hour stages.
If you wish to change these settings, refer to the «installation guide» or contact your installation engineer.
