
INFORMATION SECURITY

Goals ([2](#))

In course unit, I will: ([2](#))

Goals

In course unit, I will:

- present the basics of Information Security
 - concepts, techniques, protocols
- allow a more in-depth learning of specific topics
 - mini-project!
- hopefully, help my students become:
 - aware of cyber-threats (and be able to make their own risk decisions!)
 - with mobile devices, social engineering, ...
 - aware of ways to protect their daily activities
 - with computers, communications (email, file transfer, ...)
