1. **Aim**

   Very close to the knowledge space.

2. **Introduction**

   ...discovered through scientific research.

3. **Discussion**

   ... for scientific discovery.

4. **Comparison**

   ... for scientific discovery.

5. **Conclusion**

   ... for scientific discovery.

6. **Discussion**

   ... for scientific discovery.

7. **Conclusion**

   ... for scientific discovery.

8. **Supplementary**

   ... for scientific discovery.
