Governance Professionals

Anastássios Perdicoúlis
Professor Auxiliar, ECT, UTAD (http://www.tasso.utad.pt)
Senior Researcher, CITTA, FEUP (http://www.fe.up.pt/~tasso)
Visiting Researcher, Oxford Institute for Sustainable Development, OBU, UK

Abstract

Professionals such as administrators or entrepreneurs (Perdicoúlis, 2014c) can be screened for capability or ‘fitness for purpose’ (Perdicoúlis, 2014b) in complementary perspectives (Perdicoúlis, 2014b). Responses should be provided with scientific rigour (Perdicoúlis, 2012) in appropriate means (e.g. text, lists, tables, diagrams). Shortfalls should be addressed through instruction (e.g. lectures, workshops) or coaching (Perdicoúlis, 2014e).

1 Understanding

Industry in Objective Terms
Do you understand how your industry works? What is involved and in which relationships? Try to explain.

Understanding and its Register
Can you put your understanding on a piece of paper? Demonstrate it. Is it complete and unambiguous?

Context and Causality
Can you place your situation in a wider context? Can you do this in terms of relationships, not ranking? Demonstrate it.

2 Order

Problem Handling
How do you define your problem? Do you know what to ask for and what to do? Demonstrate it.

Creativity and Reasoning
Are you creative, methodic, and thorough when looking for solutions? Can you display your reasoning? Demonstrate it.

Efficiency/Performance

3 Autonomy

Research/Preparation
Do you know how to research your own case? What preparation do you need for this? Try to explain.
